13. To keep email at server site for daily backup, you need to change your account setting again.

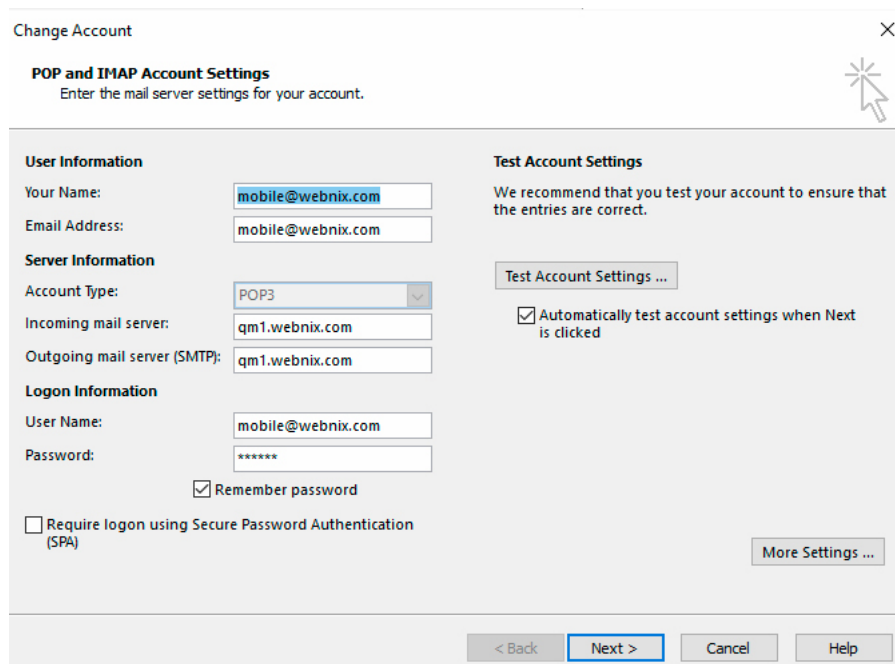

14. Click “Account Setting”

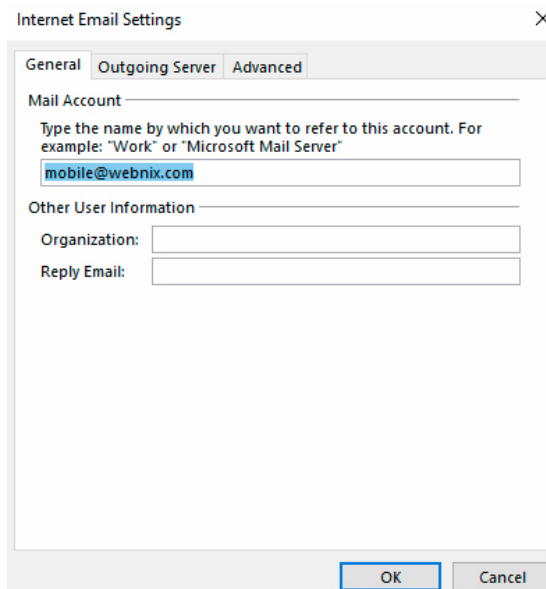

15. It will pop up your email account list. Please click on your email address and click “**Change Account**”

16. It shows your account details below.

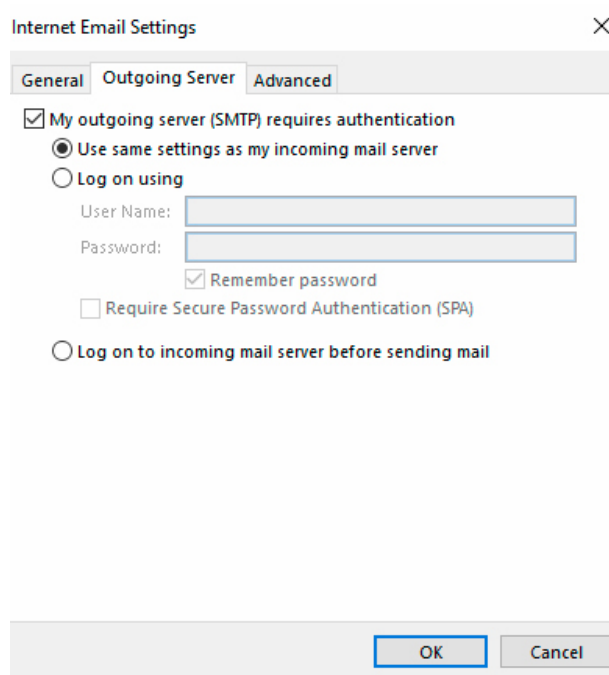

17. Click on "More Setting" Button.

The screenshot shows the "Internet Email Settings" dialog box with the "General" tab selected. The "Mail Account" section contains a text box with the email address "mobile@webnix.com". Below it, the "Other User Information" section has two text boxes: "Organization:" and "Reply Email:". At the bottom right, there are "OK" and "Cancel" buttons.

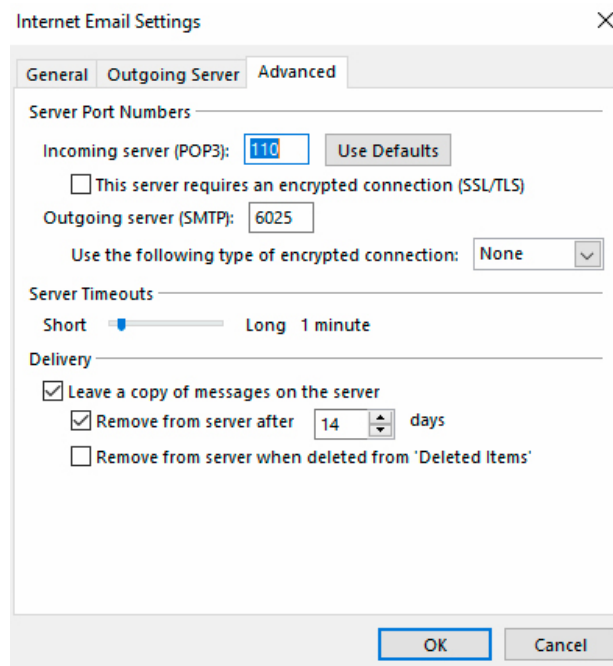

18. On the Internet E-mail Settings window, select the "Outgoing Server" tab.
19. Select "My outgoing server (SMTP) requires authentication."
20. If you did not change the SMTP relay section, select "Use same settings as my incoming mail server". If you changed the user name and password in the SMTP relay section of your Manage Email Accounts page, select "Log on using" and enter the user name and password. The following example assumes you did not change your SMTP relay section in your Manage Email Accounts page.

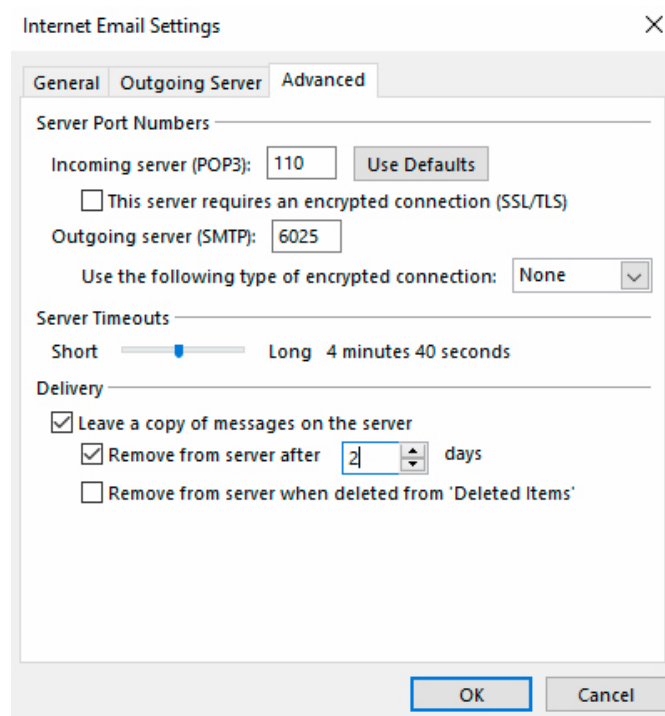

The screenshot shows the "Internet Email Settings" dialog box with the "Outgoing Server" tab selected. The "My outgoing server (SMTP) requires authentication" checkbox is checked. Under this, the "Use same settings as my incoming mail server" radio button is selected. The "Log on using" section has two text boxes for "User Name:" and "Password:", with a checked "Remember password" checkbox below them. The "Require Secure Password Authentication (SPA)" checkbox is unchecked. The "Log on to incoming mail server before sending mail" radio button is also unselected. At the bottom right, there are "OK" and "Cancel" buttons.

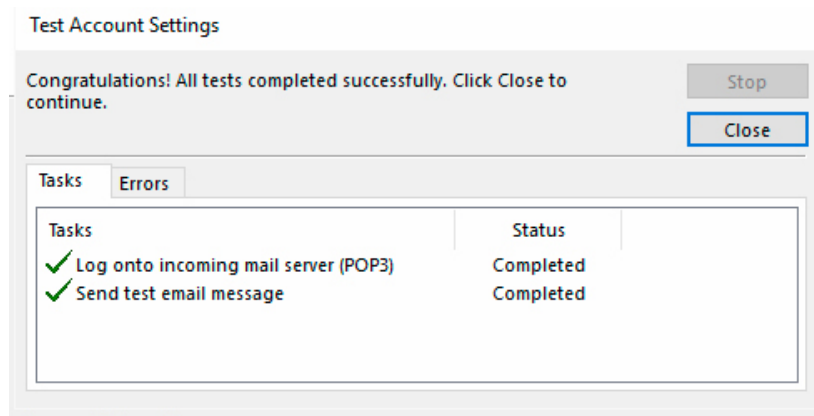

21. Select the "Advanced" tab
22. To having a email daily backup at our server, please tick the box "Leave a copy of messages on the server".

23. Tick the box, "Remove from server after 14 days" and change the day number to "2". (We suggest not to keep more than 7 days or above)

24. Click **OK**. Outlook will test your account setting again.

25. Click **Finish**.
